

AMENDMENTS TO THE SPECIFICATION

Please amend the present Specification to include the attached amended “Sequence Listing” after the Listing of Claims and before the Drawings. The attached copy of the amended “Sequence Listing” is in “TXT” format, which is a Computer Readable Form. The “Sequence Listing” has been amended to include SEQ ID NO: 20, which corresponds to LE<sub>5</sub>AY. Support for this amendment to the “Sequence Listing” is found in the specification at least in paragraphs [0105], [0106], [0142], and [0151]. These paragraph numbers refer to the paragraphs in Applicants’ published patent application. Applicants believe that the amended “Sequence Listing” in TXT form does not add to the application new matter and that the attached copy of the amended “Sequence Listing” complies with 37 C.F.R. §§ 1.821(c) and 1.825. As Applicants are filing the attached copy of the amended “Sequence Listing” as a “TXT” file via EFS-Web, Applicants believe that a statement under 37 C.F.R. § 1.821(f) is not required.
